COMPANY PROFILE

The mission of TWS start from Italy and is based in the supply and assistance of prepress Materials & Systems for the Graphic Industry and has been developed during the last thirty years with the target to enhance productivity and quality performances of its customers. Company skills are consolidated by the direct partnership of TWS with Chinese factories of digital offset plates offset and systems platesetters.

Thanks to the long TWS's experience, starting from year 2008, in cooperation with the best manufacturer plant of plates from China according with the high standards required in the European market, **POWERPLATE** line include the high-tech knowledge and the elevate scientific research of this enterprise. Most of the three "big & known" brands (...especially the biggest one!) are regularly and timely supplied through this important production pole.

POWERPLATE Digital Plates & Chemicals

PowerPlate is the historical brand of a complete offset plate line produced for TWS by the most professional manufacturer of China, one of the very few companies able to grant a complete range of products in terms of kinds (Thermal and CtCP), thicknesses and sizes.

It is a complete portfolio to satisfy all market demands, in Thermal Laser applications as well as UV Laser (CtCP). For each imaging technologies the line includes Dual Layer (**Diamond** for Thermal & **Quartz** for UV laser) and Single Layer (**Brilliant** for Thermal and **Emerald** for UV laser) products. The manufacturer is rapidly expanding around the world market and PowerPlate offer with its line high quality and absolute consistency and repeatability.

POWERPLATE is the top performances line, the right solution we put to the attention of all markets in Europe through the best referenced local dealers and resellers.
This is your opportunity.

Contact us for more detail, have a look at the **POWERPLATE** family and to its stock list of formats. In few words, **MAKE IT EASY & CONVENIENT**.

YOUR OPPORTUNITY, OUR MISSION!

Work with us, your customers will thank you!
