

AURORA 800 U864

AMSKY

Category	CtP Platesetter
Model	AURORA 800 U864
Manufacturer	AMSKY
YOM (Year of Manufact.)	2014
S/N Serial Number	702810226
Laser Technology	CTCP UV Laser
Resolution	2400 Dpi
Imaging System	External Drum - Continuous
Productivity	28 pph (plates per hour)
Controller	Amsky TDL

Surrender conditions	Ex-Works TWS warehouse
WorkFlow	NO
Warranty*	
Installation	NO
Selling Price EUR	14.000 IVA (VAT) Not Included

*Spare Parts Only

Description/note

Continuous-load external drum CTP system, 64-channels, 400-410nm laser for conventional plate exposure for CTcP.
 - Resolution 2400 dpi - 28 plates/hour in 1030x800 mm format at 2400 dpi. -
 - Maximum plate format: 1130x920 mm. - Minimum plate format: 300x400 mm. -
 - Maximum exposure format: 1130x904 mm. - Thicknesses: 0.15 - 0.30 - Dynamic autofocus and channel autoswitch technology - Repeatability: +/- 5 microns on the same CTP and +/- 15 microns on two calibrated CTPs - Weight: 1,200 Kg. -
 Dimensions: (LxWxH) 2,010x1,410 x 1,200 mm Electrical requirements: 220V; Max Power Consumption (Peak): 4KW
